

AB HANDSHAKE CORPORATION

PROVIDER OF INNOVATIVE ANTIFRAUD SOLUTIONS

AB HANDSHAKE – ABOUT US

AB Handshake Corporation is a provider of a unique real-time call validation technology based on cooperation between operators with the aim to eliminate fraud and restore confidence in voice services.

The company is already working with 20+ operators in different regions to provide call validation services with over 200 companies in active negotiation phase.

We are also working with national telecom regulators, helping to create a safe environment for subscribers of telecommunication services.

AB Handshake Corporation

The company was incorporated in 2020 under the laws of State of Delaware, USA (reg. # 85-2724042) and is licensed to do business in the state of Florida (reg. # 3514256). The company complies with all applicable trade controls, as well as all export, re-export, and import laws and regulations of USA.

The mission of AB Handshake is to build a community of retail traffic owners where each member of the community will be taking part in combating voice fraud and protecting their customers from scam and nuisance calls.

The main business activity of AB Handshake is to provide a call validation solution that performs out-of-band end-to-end validation of calls in real time. The AB Handshake software module integrates with the operator's network using standard protocols: SIP, Radius, HTTP API, etc. This SW module resides within the operator's network perimeter and does not expose any sensitive customer information.

AB HANDSHAKE EARLY HISTORY

ENTERING THE FRAUD MANAGEMENT FIELD

The technology division within the global carrier Lanck Telecom developed a Fraud Management System (FMS) that is currently being used by 100+ service providers worldwide

ESTABLISHING AN INDEPENDENT COMPANY

An independent US entity - AB Handshake Corporation - was established as a dedicated worldwide provider of the AB Handshake call validation service

RETHINKING WHAT IS POSSIBLE

While working on the statistical and AI-based FMS, the AB Handshake call validation solution was invented, bringing fraud prevention to a new level

COMMERCIAL USE

The solution has started to validate live commercial traffic between participants of the AB Handshake validation community.
